REVIVAL OF A LAPSED LICENSE

If you were ever issued a full license in Massachusetts that you did not renew, you must complete a lapsed license application to revive your license to practice medicine. If your full license was revoked or suspended by the Massachusetts Board of Registration in Medicine, do not submit a lapsed license application, please contact the Board's Division of Law and Policy to see what steps are required for possible reinstatement of your license.

Please read the Revival of Lapsed License instructions before sending your lapsed application and fee for \$700.00, to the Board. Every question on the lapsed application and supplement must be answered. If you answer "yes" to questions #1-14 on the supplement, you must also complete the additional supplement pages and provide the required information.

When you receive the National Practitioner Data Bank Profile, attach it to your completed lapsed license application and mail the packet to the Board of Registration in Medicine at the above listed address. Please mail all of the required documents together. **Do not open the National Practitioner Data Bank Profile envelope.** If the seal on the envelope is broken, the Board will not accept the contents of the envelope, it will be returned to you and you will have to repeat the process.

If you have any malpractice or legal issues, the information must be sent directly to the Board from your liability carrier or attorney. Documents for legal issues must be sent directly to the Board from the court or your attorney.
